EDUCATION

The University of Tennessee, Knoxville, Tickle College of Engineering
Masters and Bachelors of Science in Computer Engineering
Minor, Concentration, or Collateral: Cybersecurity and Datacenter Management and Technology
Cumulative GPA: 3.64/4.00

PROFESSIONAL EXPERIENCE

Mercury Systems

Security Engineer

Huntsville, Alabama

40 hrs/week December 2023 – Present

- Perform continuous monitoring and incident response, implement custom detections based on relevant threat intelligence TTPs.
- Identify effective coverage for logging, security tools, and detections.
- Program lead on insider threat, endpoint security, and threat management projects.
- Led CrowdStrike EDR deployment for the entire organization including non-domain lab/OT technology.
- Developed disaster recovery and incident response plans
- Deployed Microsoft Purview for data marking, data loss prevention, and regulatory compliance.
- Participated in JSVA audit for CMMC Level 2 compliance, achieving adherence to 110 security controls.
- Conducted vulnerability assessments on legacy systems.
- Managed firewall configurations, including patching, rule creation, and risk assessments for system controls.

Avertium Cybersecurity

Security Operations Center, Cybersecurity Analyst Intern

Knoxville, Tennessee

25 hrs/week May 2021 – December 2023

- Conducted thorough investigations of security alerts across multiple SIEM platforms, including Microsoft Sentinel, FortiSIEM, LogRhythm, and AlienVault USM Central/Appliance.
- Communicated escalations of malicious activity to clients through detailed reports and direct engagement, facilitating swift mitigation actions on Endpoint Detection and Response (EDR) systems.
- Utilized advanced online toolkits and sandbox environments to analyze and interpret suspicious behaviors within customer networks.
- Worked in shifts at security operations center (SOC).

COMMUNITY

National Defense Information Sharing and Analysis Center (ND-ISAC)

Collaborative Member, Threat Hunting and Cybersecurity Regulations Working Groups

Huntsville, Alabama

2023 – Present

- Discuss active threat intelligence reports being generated in OpenCTI by other Defense and Aerospace industry partners.
- Discuss the challenges and successes of developing Cyber Threat Intelligence (CTI) programs.
- Collaborate on comment periods for US DFAR regulations that will have impacts on the Defense and Aerospace industry.
- Participating in Tiger Team to produce white paper on data protection programs in Aerospace/Defense

Department of Defense Cyber Crime Center (DC3)

Member

Huntsville, Alabama

2023 – Present

- Receive threat reports and IoCs from incidents that DC3 investigates.
- Provides webinar training and collaborative sessions on threat intelligence and hunting.

SKILLS

- **Certifications:** DoD SECRET Level Clearance, ISC2 Certified in Cybersecurity (CC)
- **Technical Proficiencies:** SIEM platforms, Data Security, Endpoint Detection and Response (EDR), Incident response investigations, Checkpoint firewalls, scripting (e.g., Python, Bash), and virtualization technologies.
- **Soft Skills:** Strong analytical problem-solving, effective communication, teamwork, and leadership abilities.
